DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1 – 3, drawn to a cage and a method of using the cage.

Group II, claim(s) 4 and 5, drawn to a double safety valve.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: claims 1 – 3 do not require the specifics of a double safety valve as claimed; and, claims 4 and 5 do not require the specifics of a cage or a method of breeding laboratory animals as claimed. Therefore, claims 1 – 3 lack unity of invention with claims 4 and 5.

2. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
